

AES Indiana in Pike County

A proud partnership with Pike County for more than 50 years, strengthening our community and ensuring energy excellence.

Investing in local growth and innovation: AES Indiana is investing more than \$1.1 billion in Petersburg and Pike County from 2024 to 2026.

Petersburg Generating Station Repowering

- **New fuel:** Unit 3 and Unit 4 will be converted from Coal to Natural Gas pending IURC approval.
- **On the way:** Conversion will be completed by December 2026.

Pike County Battery Energy Storage System (BESS)

- **Interconnection:** Using rights from a retired coal unit.
- **Energy Capacity:** Can store and deliver up to 200 MW of electricity for four hours.
- **Coming Soon:** December 2024, with construction underway.
- **Battery Setup:** Standalone battery project, with all batteries in one location, connected to a substation.

Petersburg Energy Center project

- **Generation and Storage:** Installing 515,388 solar modules. The facility will have an installed generation capacity of 250 MW of solar energy generation and 180 Megawatt-hour (MWh) of storage capacity.
- **On the way:** Operational by the end 2025.
- **Connected:** Connecting to the Petersburg Plant station, reusing the interconnection rights from a former coal generation unit.

A 100MW solar power plant can generate enough electricity to power about 60,000 homes.

Our commitment

We deliver safe, reliable and affordable energy by transitioning to a diverse mix of renewable and conventional sources. Our efforts enhance grid stability and modernize infrastructure, leveraging global expertise for community benefit. By diversifying our energy portfolio and supporting renewable integration, we provide long-term, cost-effective solutions to our customers.

Empowering our workforce

Nurture our talent

Reskilling our people for current or future roles.

Facilitate growth

Providing pathways to new opportunities within the company.

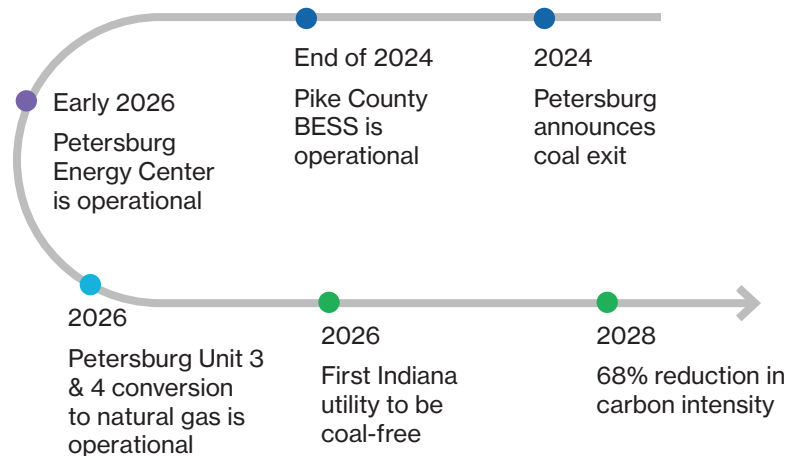

Fill vital roles

Ensuring critical positions are filled utilizing existing workforce.

About AES Indiana

AES Indiana, an AES Company, provides retail electric service to more than 500,000 residential, commercial and industrial customers in Indianapolis, as well as portions of other Central Indiana communities surrounding Marion County. Together with our many stakeholders, we're improving lives by delivering the greener, smarter energy solutions the world needs. Our diverse workforce is committed to continuous innovation and operational excellence, while partnering with our customers on their strategic energy transitions and continuing to meet their energy needs today.
